Residential Rebate Information for High Efficiency Fixtures

Eligible Fixtures	Energy Efficiency Requirement	PUD Incentive
Electric Water Heater: 50 - 64 Gallons	Energy Factor of 0.93 or higher	\$25
Electric Water Heater: 65 Gallons & up	Energy Factor of 0.91 or higher	\$25
ENERGY STAR CFL Fixtures - <i>hard-wired</i>	Current ENERGY STAR Certification	\$10
Fixtures receiving in-store PUD/BPA rebates and/or linear tube fixtures (T8, T12) <u>do not</u> qualify for this rebate. Rebates shall not exceed the pre-tax purchase price. Rebates may be modified or discontinued at any time. This form will expire 9/30/13, or when rendered obsolete by the most current version, whichever comes first.		

Obtaining the Energy Factor (E.F.) of Your New Water Heater

Note: some water heater manufacturers make this easier than others.

- Inspect your water heater and the printed materials that came with it, look for EF or E.F. Rating.
- Ask your water heater supplier to provide you with the Energy Factor rating.
- If you purchased a G.E. water heater from Home Depot, G.E. water heater information sheets, complete with EF ratings, are often available at the store's water heater display area.
- Go to www.clallampud.net/conservation: click on the Water Heater E.F. Ratings link. Provide the information requested in the right-side column (*you can ignore the left column*). This will generate a listing of one or more water heaters with model numbers similar to what you entered. When you find a match, note the Energy Factor. If it meets or exceeds the above requirements, your water heater should be eligible for the rebate.

Note: water heaters less than 50 gallons and on-demand/tankless water heaters are ineligible for this rebate.

Verifying ENERGY STAR® Certification of CFL Light Fixtures:

ENERGY STAR CFL Fixture Rebates require current ENERGY STAR® certification demonstrated by listing(s) on the official ENERGY STAR® website (www.energystar.gov). The PUD offers the following ENERGY STAR® verification methods to help you ensure that your CFL fixture(s) is/are rebate eligible.

Please note:

1) New models may take several months to appear on official online certification lists, e.g., ENERGY STAR, AHRI. Please wait until your fixture is listed before submitting your rebate request. Rebate requests received for unlisted fixtures will be returned.

2) Asterisks* on ENERGY STAR lists are "wild cards"; they mean, *insert any letter or number here*.

Certification Verification:

- 1) Visit the PUD's Conservation Department web page at www.clallampud.net/conservation
 - a. Select the ENERGY STAR CFL Fixtures List link to obtain a list of CFL fixtures by manufacturer. Note this is a very large PDF file, usually 6 MB or more in size.
 - b. Once you've found your fixture's listing, print that page and attach it to your rebate form.
- 2) Visit the source of the above CFL Fixtures List: www.energystar.gov
 - a. Under the Find ENERGY STAR Products section, select Light Fixtures.
 - b. On the Light Fixtures web page, download the Qualified Light Fixtures Product List. Note this is a very large PDF file, usually 6 MB or more in size.
 1. Once you've found your fixture's listing, print that page and attach it to your rebate form.

Your PUD offers a wide-range of rebates and incentives for energy-saving measures.
Visit your local PUD office, www.clallampud.net/conservation or call (360) 565-3249 for information.
